IMPROVE YOUR BUSINESS' FINANCIAL HEALTH.

Smart.

" Combining my checking account and accounting system into one tool saves me a lot of time and headaches, why wasn't this invented years ago! "

Simple.

" I just need more time to create, that's how I make my mark on the world. Accounting isn't my thing, so having it automated for me makes year-end taxes a breeze. "

Secure.

" I like the idea of managing all my business accounts in one place. It makes me uncomfortable sharing information with companies I don't know. "

- Small Business Owners

All-in-one banking & bookkeeping

Autobooks combines several tools into one, so you don't need to learn and pay for separate tools — get everything you need, in one convenient place — your online banking account.

Show me the money

Autobooks automates invoicing and payment processing so you get paid sooner and can purchase the things you need to keep your business running smoothly.

THE place business owners start & end their day

Autobooks helps you keep your finger on the financial pulse of your business. Know who has paid, and who hasn't — when a bill is due and when an invoice got paid — all with the touch of button.

Anytime, anywhere

Business in the cloud means you can stay connected to your data and do business on your schedule from any device.

Safe & sound

With advanced security and the highest encryption available, you can sleep well knowing your business, and its precious data are well protected.

Always up-to-date

No more updates, re-boots, downloads or uploads — just simplicity and peace of mind.

GET PAID. FASTER.

Spend less time chasing money, and more time making it.

VIEW ONE BALANCE REPRESENTING ALL YOUR ACCOUNTS

SEND INVOICES AND TRACK CUSTOMER PAYMENTS

The screenshot displays the Autobooks dashboard interface. On the left is a navigation menu with options like Dashboard, Contacts, Cash In, Cash Out, Transactions, Reports, and Advanced Tools. The main area features a 'What do you want to do?' section with buttons for 'Add Contacts', 'Send Invoice', 'Pay a Bill', and 'Customize'. Below this, there's a 'Cash Balance' section showing a balance of \$53.1k and an 'Invoice Summary' with a 7.6% paid indicator. A bar chart shows 'Cash In' (green) and 'Cash Out' (red) for various months. On the right, an 'Activity' feed lists recent transactions such as invoices and bill payments.

FREQUENTLY ASKED QUESTIONS (FAQS)

What is Autobooks?

Autobooks is a cash-management platform for small businesses. 4Front Credit Union has partnered with Autobooks to deliver services traditionally only available to large businesses, all within your online banking account. With Autobooks, a business can send invoices, accept payments from multiple channels (such as credit card, ACH, and automatic check deposit), and even automatically update its books with each transaction.

What benefits can I expect?

You can expect to get paid faster from customers, with less effort. You'll be able to accept any payment type your customer chooses, for one low rate. Year-end accounting will be a breeze, with pre-configured reports for your accountant to help with taxes. You'll save time and money while running a better business.

Does Autobooks replace QuickBooks?

Yes, in most cases, it can. Autobooks works exclusively with financial institutions like 4Front to replace services like Quickbooks and PayPal – saving you time and money. No prior bookkeeping experience required!
